GLASS VERANDAS

- *Simplicity 6*
- *Simplicity Xtra*
- *Simplicity Free*
- *Alfresco Contemporary*

Elevate your home with our Aluminium Glass Verandas, a fusion of elegance and practicality that not only enhances your living experience but also adds significant value to your property. Crafted with high-quality aluminium and a sophisticated glass roof system, these verandas are more than just an outdoor feature; they're a smart investment.

The sleek design of our verandas not only complements your home aesthetically but also contributes to its financial value. Homeowners find that adding a durable and stylish outdoor living space is a strategic move in boosting property appeal and market worth. The noise-reducing glass roof ensures a peaceful environment, making it an attractive feature for potential buyers or for your long-term enjoyment.

Moreover, the glass roofing invites natural light while offering protection from the elements, ensuring your veranda is a versatile, year-round space. Whether for personal relaxation or entertaining guests, our Aluminium Glass Verandas offer a low-maintenance, elegant solution that extends your living space outdoors. Invest in a veranda today and enjoy the dual benefits of a visual upgrade and a wise financial decision for your home.

CARPORTS & CANOPIES

- *Simplicity 16*

- *Simplicity 35*

Welcome to our Simplicity series, where each name reflects the unique thickness of our polycarbonate roofing panels, offering bespoke solutions for your canopy and carport needs. The Simplicity 16, and Simplicity 35 are designed to provide optimal protection and style, making them ideal for a variety of settings.

The Simplicity 16 and 35, with their 16mm and 35mm polycarbonate roofing panels respectively, offer robust shelter and durability. These systems are perfect for those seeking reliable and stylish canopy or carport solutions. The polycarbonate panels ensure a balance of light transmission and protection, making them practical for all weather conditions.

Discover the perfect blend of functionality and elegance with our aluminium canopies and carports, specifically designed to enhance your space with their unique features and durable construction. For a glass roof option available as a wall-mounted or free-standing carport, our Simplicity Free system can also be specified.

SHADING

- *Electric Vertical Rollerblind*
- *Manual Underblind*

Explore our latest range of shading products, a series of innovative blinds designed to enhance our outdoor living solutions. Perfectly complementing verandas, canopies, carports, and glass rooms, these blinds offer both comfort and privacy, transforming your outdoor space.

Tailored to the diverse needs of any outdoor area, our 'Shading' collection provides protection from the sun's glare and adds insulation during cooler months. These practical additions maximise your outdoor settings, allowing you to enjoy them comfortably in any weather, offering a convenient way to control light and temperature.

Ideal for both residential and commercial settings, our shading solutions enhance outdoor experiences. They offer protection from the elements and bring a touch of sophistication to your space, making it more inviting and usable throughout the year.

Electric Vertical Rollerblind

Enhance your veranda, canopy, glass room, or carport with our Electric Vertical Rollerblinds, a seamless blend of functionality, elegance, and resilience. Constructed from Soltis 92 Screen Material, this high-grade external screen fabric is not only incredibly strong and resistant to stretching but also fire-resistant, ensuring safety and durability. Our Rollerblinds come with a 5-year guarantee for colour fastness, promising long-lasting vibrancy.

Designed for ease of use, Rollerblind features heavy-duty spring tension, enabling smooth and consistent movement for effortless manual operation. The fabric stays taut at all times, allowing for simple hand adjustments without any stops.

This is particularly advantageous for outdoor spaces, offering crucial light and temperature control. On sunny days, Rollerblind helps maintain a more comfortable environment that is cooler and shaded. During high winds, it provides added stability and protection to the occupants.

SHADING

Manual Underblind

Elevate your veranda, canopy, glass room, or carport with our Underblinds, the perfect fusion of functionality, elegance, and durability. Made from Soltis 92 Screen Material, a high-grade external screen fabric, these blinds are not only incredibly strong and resistant to stretching but also fire-resistant. They come with a 5-year guarantee for colour fastness, ensuring enduring vibrancy.

Our Underblinds are designed with heavy-duty spring tension for smooth, consistent movement, facilitating effortless manual operation. The fabric remains taut at all times, allowing for easy hand adjustments without any stops.

This feature is especially beneficial for outdoor areas, providing essential light and temperature control.

During sunny weather, they help maintain a cooler, more comfortable environment, while in high winds, they offer added stability and protection.

UPGRADES

Victorian

The Victorian Upgrade transforms the Simplicity range into ornate and beautiful shade and shelter structures which enhance the exterior of any building.

The Victorian Package has been our most popular upgrade, with the design features allowing for a true complimentary feel to both modern and traditional homes, and even commercial properties alike.

Amongst the optional upgrades we provide are the Victorian Gallows Brackets and Base Castings which are colour matched in our powder coat finish to allow for seamless integration.

Features ☆

- Decorative, Victorian style post upgrade which includes Post Sleeves and Gallows Brackets
- Ideal for domestic use to blend in with traditional style dwellings
- Provides a covered area that is in keeping with traditional or historical building styles
- Can be coloured to any standard colour to match the canopy and surrounding area
- Manufactured from robust aluminium

Infrared Heating

Elevate outdoor living projects with our California Heaters, a pinnacle of style and functionality. This page has all the information you need on the California Heating System – including colour options and technical information.

Features ☆

- **Versatile Warmth:** Enjoy instant, powerful, and comfortable heat in various settings, from home to commercial areas.
- **Stylish Design:** Enhance outdoor spaces with the sleek and contemporary aesthetics.
- **Silent Operation:** Experience quiet and efficient heating without disrupting the ambient environment.
- **Flexible Placement:** Wall-mount or use a portable stand for adaptable positioning, ensuring optimal comfort.
- **Energy Efficiency:** Achieve environmentally friendly warmth, with mirror aluminium reflectors minimising heat loss.

IMAGE SHOWING OUR CALIFORNIA HEATING SYSTEM IN POSITION ←

RGBW Lighting

Brighten up your veranda, canopy or glass room with the Integrated RGBW LED Lighting System. This product must be installed by a qualified electrician.

Features

- Integrated into the system seamlessly, our lighting system merges into the aesthetic when not in use.
- All wires are hidden within the canopy frame for a neat, tidy appearance.
- Enables users to use their canopy in the early morning or late evenings, when it may otherwise be too dark.
- The lights are fitted to the underside of the roof to light up the area underneath the structure.
- Operated by remote control for convenience.

LED Spotlights

Bring endless light to your veranda, canopy, or glass room installations with the use of our Spotlight Upgrade when you order one of our Simplicity Xtra or Sim Free models. Providing a contemporary look, these will be a great addition to any outdoor living space project.

Features

- Our Spotlight systems are integrated into the veranda, enhancing the aesthetic while in use and almost unnoticeable when turned off
- All wires are hidden within the veranda frame for a seamless appearance
- The lights are Integrated into the bolster bar to give it a sleek finish
- Operated by remote control for convenience
- Enable customers to use their veranda in the early morning or late evenings, when it would usually be too dark

A-FENCE

- *Aluminium Fencing*
- *Gate Profiles*
- *Concrete Post Adapters*

Transform your home or commercial venue with A-Fence, an advanced aluminium fencing solution that's changing the game. This sleek, fire-safe design is not just eye-catching but also incredibly practical, requiring only a few components for a sturdy installation.

A-Fence isn't just about looks; it's about safety too, with an A2-s1, d0 fire rating that assures non-combustibility. In a world where material choices matter more than ever, A-Fence stands out as a smart, future-proof option. Say goodbye to the common issues of wooden fencing, like warping and splitting due to moisture. A-Fence's aluminium build is non-porous, ensuring your fence stays strong, stable, and beautiful for years. It comes with a 10 year guarantee and 60 year minimum life expectancy.

Choose A-Fence for a durable, low-maintenance solution that enhances the security and aesthetic of your property, be it a cosy home or a bustling commercial space.

Aluminium Fencing

Each of our 5 A-Fence panel options is interchangeable, giving you the flexibility to mix and match to create your desired design. Whether you prefer a narrower, wider, or interlocking slat, the A-Fence system has you covered.

The A-Fence system offers a range of slat options to cater to your specific design preferences. Here are the different slat options available for A-Fence:

50mm Slat: This slat size provides a sleek and modern look to your A-Fence installation. It offers a narrower profile, allowing for a more open and contemporary aesthetic.

100mm Slat: The 100mm slat option offers a wider profile, adding a bold and substantial appearance to your A-Fence system. It can create a more solid and private barrier while still maintaining a stylish design.

150mm Slat: If you're looking for a slat size that strikes a balance between openness and privacy, the 150mm slat is a great choice. It offers a medium width profile, allowing for a combination of visibility and seclusion.

120mm Interlocking Board: The 120mm interlocking board profile offers seamless integration and uninterrupted appearance. These boards interlock with each other, creating a smooth and continuous surface without any visible gaps.

240mm Interlocking Board: Meet our latest innovation to A-Fence range. The new 'Jumbo Board' is a sophisticated Interlocking board profile designed to elevate privacy and offer a unique aesthetic for taller fence profiles and can also be used as a privacy screen.

Gate Profiles

Whether you're a domestic customer looking to enhance the security and charm of your home or a commercial customer seeking a reliable and stylish solution for your premises, our Gate Profiles are here to enhance your outdoor space.

These gate profiles are specifically designed to seamlessly integrate into our A-Fence system but can be specified separately, making an ideal solution for driveways, gardens, and other outdoor spaces that require secure access.

Crafted from sturdy aluminium and finished with a durable powder-coat, our gate profiles are built to withstand the test of time and weather.

With a range of design options available, you have the freedom to customise and create the perfect gate for your needs. Our gate profiles come in a textured Anthracite Grey 7016 or Jet Black 9005 finish, with the option for bespoke colours upon request.

Our gate profiles come with a generous 10-year guarantee and minimum 60 year life expectancy, providing you with peace of mind and confidence in your investment.

Concrete Post Adapters

Our concrete post adapters are meticulously crafted to seamlessly integrate the A-Fence system with existing concrete posts, providing a hassle-free and reliable fencing upgrade. These adapters are designed with durability in mind, ensuring they withstand the test of time and weather conditions.

With our concrete post adapters, you can effortlessly enhance the aesthetic appeal and functionality of your garden or commercial space. They offer a convenient solution for those who already have concrete posts in place, eliminating the need for extensive modifications or post replacement.
